

## Compressed Gas Cylinder Markings

- 1 DOT cylinder type code and service pressure
- 2 Serial number
- 3 Manufacturer's mark
- 4 Initial test date and inspector's mark
- 5 Requalification/retest dates
- 6 + indicates that the cylinder may be safely overcharged by 10%
- 7 ★ indicates that the cylinder was tested at the 10-year mark instead of the 5-year mark
